

# STARS Classes with College Credit !!!

## Over \$400 value at no cost to you!

**Building Bridges to Higher Education** provides college-level instruction, tuition, textbook, mentoring and food—funded by a grant, so there is no cost to you. However; you will be expected to attend all 10 hours in each module, complete the homework and utilize the mentors made available through this outstanding program. Each class comes in a set of 3 modules, and you can take one, two or three modules for one credit each (plus 10 STARS hours) or all 3 for a total of 3 college credits! Mentors/Coaches attend classes and meet with you out of class to talk about the material and assist you with your personal goals in each class.

**Building Bridges to Higher Education** is proudly presented by WA State Dept of Early Learning Centralia College, South Puget Sound Community College, and Child Care Action Council.

Washington State Department of  
**Early Learning**
